- **Congratulations everyone!!**

- Notes

- **A note from Salman Sir**

The exam study circle is established to bring harmony during exam periods as it always turns into a panic condition. Students isolate themselves and create a highly toxic and competitive atmosphere. Here, we have multiple leaders who can teach, revise and help the group members to understand most easily and prepare their friends for the exam. We developed a sense of responsibility and,

caring nature for other students.

- A note from the group members

We are very happy with the work and efforts done by the leaders and sir. We wish to continue this group and this helped us a lot in improving.

This was an interesting way of learning and thanks to the leaders and Sir.

- A note from the Leader

I firstly thank Allah SWT and Sir for giving me an opportunity to lead a team in the right guidance. This was my very first experience teaching 5 students

in a very less time but thanks to Allah the almighty who made this activity a success, and the team members, assistant, and sir who co-operated with me, without their support this couldn't be possible. Because of ESC I became more responsible and careful through my work. I just wish that this continues on.

Once again, I would like to thank Allah SWT, my team members, assistant, and sir for making this activity a success.

- A note from the assistant

First of all, I thank Allah SWT very much for making me assistant and a good place to do this work and also for Salman sir and our leader. I like this job very much as this is a very unique way to teach and learn. Me and our team members were able to learn something creative from ESC classes. This was very fun. In this our leader has taught us a lot. And they also learned something good by this. ' A TEAM IS NOT A GROUP OF PEOPLE IT IS THE PLACE WEHERE WE WORK TOGETHER'.

ALHAMDULILLAH!

COMPLETED WITH SUCCESS
AND HAPPINESS.

JAZAKALLAH!
